

THE COMPLETE CONCRETE COATINGS PRICING GUIDE

COATING

INDOOR/OUTDOOR

WHERE USED

WHY USED/BENEFITS

PRICE PER SQ. FT.

Penetrating Concrete Sealer

Indoor & Outdoor

Driveways, walkways, porches, patios, garages, warehouses, shops, aircraft hangers

Seal & protect concrete from moisture damage, freeze/thaw cycle, **ice melt, road salt**. Easier to sweep & keep clean.

\$1.25 - \$1.75

Concrete Grind & Seal

Indoor & Outdoor

Any areas of concrete in need of renewal and refreshing. Commercial businesses, restaurants, warehouses, shops, aircraft hangers, interior of homes

Renewing the look of concrete surfaces, aesthetic improvement, ease of cleaning, chemical and/or wear resistance. **Raw industrial concrete look.**

\$3.00 - \$3.50

Concrete Grind, Stain, & Seal

Indoor & Outdoor

Any areas where a new custom look is desired. Commercial businesses, restaurants, patios, walkways, pool surrounds, interior of homes

Renewing the surface, adding color for a custom look, **changing the appearance with staining** to create a new fresh look. Easy to clean.

\$3.50 - \$4.00

Moisture Stop Primer

Indoor & Outdoor

Any area where moisture intrusion may be of concern

Reducing the vapor transmission through the slab to allow for any applied flooring materials to successfully bond with the concrete surface.

\$1.00 - \$1.50
added to cost of any coating below

Thin Film Epoxy

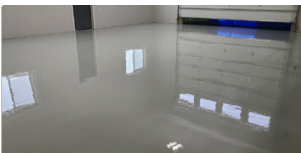

Indoor & Outdoor (with the addition of a poly topcoat)

Garages, shops, warehouses, kennels, restaurants, aircraft hangers, pump rooms, mechanical rooms, or any area where protection, wear, chemical resistance or a new "fresh look" surface is desired

Renewing the look of concrete, adding protection from stains, chemicals and wear. **Solid color.**

\$3.00 - \$4.00
Slip reduction additive – add **\$0.75**. Clear, UV stable coat for exterior use – add **\$1.50**

Self-Leveling 100% Solids Epoxy

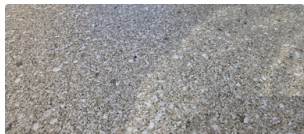

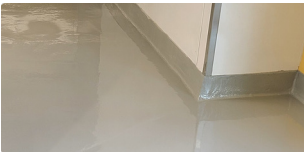

Indoor & Outdoor (with the addition of a poly topcoat)

Garages, shops, warehouses, pump rooms, mechanical rooms, commercial kitchens, aircraft hangers, or any area where protection, wear, chemical resistance or areas needing a thicker, impact or wear resistant surface for high traffic or heavy use equipment

Same as Thin Film Epoxy but used for areas needing more protective coverage or that are affected by heavy traffic or high impact. **Self-levels & fills in small cracks & damaged areas.**

\$5.00 - \$6.00
Slip reduction additive—add **\$0.75**. Clear, UV stable coat for exterior use—add **\$1.50**

COATING	INDOOR/OUTDOOR	WHERE USED	WHY USED/BENEFITS	PRICE PER SQ. FT.	
Decorative 1/4" Flake Polyurea & Polyaspartic		Indoor & Outdoor	Garages, patios, walkways, pool surrounds, warehouses, shops, aircraft hangers	Seals & protects from chemicals & stains. Waterproof, easy to clean, adds a decorative finish to concrete.	\$5.50 - \$6.50 Slip reduction additive—add \$0.75
Decorative Hybrid Flake Polyurea & Polyaspartic		Indoor & Outdoor	Garages, patios, walkways, pool surrounds, warehouses, shops, aircraft hangers, commercial businesses	Seals & protects from chemicals & stains, waterproof, easy to clean, adds a decorative finish to concrete that is different than the standard 1/4" flake.	\$6.50 - \$7.50 Slip reduction additive—add \$0.75
Tidalstone™ Polyurea & Polyaspartic		Indoor & Outdoor	Commercial businesses, restaurants, garages, patios, walkways, pool surrounds, warehouses, shops	Renewing the look of concrete surfaces, aesthetic improvement, ease of cleaning, chemical and/or wear resistance. Available in a matte finish.	\$7.00 - \$8.00 Slip reduction additive—add \$0.75
Quartz		Indoor & Outdoor	Commercial kitchens, locker rooms, kennels, shops, warehouses, pool surrounds	Same as above coatings but used when you need a thicker coating & more slip resistance. Uses colored quartz sand instead of decorative flakes.	\$8.00 - \$12.00
Urethane Cement		Indoor & Outdoor	Any areas dealing with food or drug processing, animal handling, dairies, bottling liquids, temperature impact hot or cold	When water is being utilized in production, hot or cold, damp areas needing to be sealed, antibacterial and very easy to clean, highly impact resistant.	\$9.00+ Add Integral Cove Base per linear foot of wall where cove is installed
Integral Cove Base		Indoor & Outdoor	Added to commercial kitchens, food handling areas, medical, laboratories, restrooms, breweries, washout rooms and containment areas	For areas that need to be cleaned easily and kept sanitary. Most areas that handle any human or pet consumable products require integral coved floors. Creates a "dishpan" effect by continuing coating up a vertical wall.	\$9.00+ per linear foot of wall where cove is to be installed
ESD or Conductive Epoxy		Inside Only	Warehouse, laboratories, or any areas needing spark-proof or grounded flooring for ESD (electrostatic-dissipative) needs	All electronic manufacturers need this type of flooring to be compliant with ISO# 10605 standard, which is all ESD and conductive epoxy used in manufacturing and service.	\$10.00
Deck Coating-Acrylic 11/10 Westcoat System		Outdoor Only	Driveways, walkways, corridors, patios, stamped concrete areas. Bare or coated concrete surfaces can be stained and sealed	Renew surfaces using a pigmented system. Stain can be added to the system, as well as a clear polyurethane topcoat with choice of gloss level.	Bare, coated or stamped concrete \$5.00+
NewCrete		Indoor & Outdoor	Driveways, walkways, patios, corridors, or any area where concrete is severely damaged—cracking, spalling (flaking).	A micro-topping resurfacer. Used in lieu of removing and replacing damaged concrete (typically \$16-\$20/sq. ft). Restores concrete at a fraction of the cost.	\$3.00-\$4.00
